

External research at MOLA

The following list is not exhaustive but outlines some of the key projects undertaken by external researchers from 2012 onwards. Collaborative projects involving one or more MOLA staff are indicated by an asterisk. Please consult this list, our publications and the project summaries on our website if you are considering an application. MOLA will not accept requests for projects which substantively repeat previous work.

Transition and change

- *Child health in post-medieval England*, Sophie Newman, University of Durham
- *Peri-mortem trauma in post-medieval London*, Madeleine Mant, McMasters University
- *Ceramics from roman cemeteries*, Ben Paites, University College London
- *Equid burial and morphological change*, Pamela Cross, University of Bradford
- *Faunal response to abrupt climate change: the history of the British mammal fauna from the Lateglacial to the Early Holocene*, Melissa Marr, Royal Holloway

Mapping the past

- *Mapping London*, Matthew Davies, CMH (IHR)*
- *Locating London*, Robert Shoemaker, Sheffield University; Tim Hitchcock, Hertfordshire University; Matthew Davies, Centre for Metropolitan History*

Defining a sense of place

- *Contemporary archaeologies of the modern Olympic Games*, Jonny Gardner, University College London

Travel and trade

- *Ceramic consumption groups before and after the Black Death in Italy and England*, Paola Orrechioni, University of Roma Tor Vergata (MOLA Research Associate)
- *The use of hairpins in Roman London*, Glynn Davis, MOL*
- *Pipeclay figurines in Roman London*, Matt Fittock, University of Reading
- *The 'goods' of the East India men*, Alastair Owens, QMUL*
- *Zooarchaeological and biomolecular evidence for fishing and fish trade in the medieval period*, James Barrett and David Orton, University of Cambridge*
- *The distribution of exotic food plants in Roman London*, Alex Livarda, Nottingham University
- *The husbandry, perception and 'improvement' of turkeys in Britain, 1500–1900*, Tyr Fothergill, University of Leicester*
- *Tavern groups in London*, Stephanie Duensing, University of Manchester

Science and the past

- *Examination of sex estimation in Roman adolescents*, Fiona Shapland, University of Reading; Rebecca Redfern, MOL
- *C14 dating/isotopic signal study of known-age animal bone*, Alex Bayliss, English Heritage
- *Reconstructing the domestication of the genus *Malus**, Alice Fietta, Edmund Mach Foundation, Trento (Italy)
- *Isotopic study of Romano-British burials*, Lindsay Powell, University of Durham
- *Surgical and dissection tool characterisation*, Jenna Dittmar, University of Cambridge
- *Extraction of DNA from medieval human coprolite to investigate antibiotic resistance*, Hollie White and Sophie Aldridge, University of Lincoln
